

A Forwardian Artist

Pat Transue

Pat's career started in childhood with a love of crafting. In 2004 she participated in her first fine art show in Delaware Water Gap. She has attended fine art shows throughout Pennsylvania and New Jersey. Pat photographs nature in our area. She sometimes will take an image by utilizing a multitude of computer techniques turn it into a whimsical piece of artwork.

Pat's rule to live by is "God has given us the gift of all this beauty around us; it is up to us to take a moment each and every day to enjoy that gift. She hopes that is by viewing her work, it will cause you to forget all your troubles, allow the beauty to lift up your heart and make you smile inside and out, even if it is for just a moment".

We are honored to present her work titled, "Antique Tan Chrysler."

You'll be able to read her work in Sections G of our magazine through our link at: www.theforwardianartssociety.com/Forwardian-3-Contents.html.
